

# CHESHAM BOWLING CLUB

## NEWSLETTER *July 2021*

**10** New members to join our happy (most of the time) crowd.

Lindsay & Pam, Annekatrin & Timothy, Nick, Adam, Steve, Spencer, David, and last but by know means least Helen.

I know we will make them all feel at home.

Special thanks to Norman Green, carrying on in difficult times, and Ray for their unstinting efforts with our newcomers.

**At last** the green is being turned. All credit to Tony and the team for their diligence and hard work.

**Ladies Gala** We need a few souls to have a clear up for this very important day. Nothing major just sweeping and general duties. If you can spare a hour on Thursday morning 15<sup>th</sup> it would be nice to see you.

**Painting** I know some of you really enjoy painting. I have brought emulsion for the disabled toilet so if you fancy a bit of slapping around in the loo, please let me know. The new posts on the bank are just about done and need another coat of paint, nice and easy job for a warm morning. Paint on site ready to go.

**Neems Fern** The sheet is up in the mat store.

**Disabled** bowlers are returning to the club, the pioneers are back on Wednesday 7<sup>th</sup> thanks to Adam Bleakley and Andrew Fyffe. If you can help out please let me know. We have had 2 visits from Katie and her friends from the Epilepsy Soc, which have gone very well including getting their staff to play as well, again let me know if you can join in.

**Relaxation** of the Covid rules expected soon will mean we can re-open the club house for social events. Look out for coffee mornings and Friday night get togethers

**No smoking** signs have been put up around the green and patio with designated area displayed.

**Tony** needs a couple of helpers for light grass trimming around the perimeter of the green. A couple of hours twice a month to keep the edges tidy.

**Condom?** There seems a curious case of a condom found in a container at the green. Have we got ultra cautious members. Could it be we have young visitors using our green as a romantic space or have the rabbits got the idea of denying Ray his bag???? Watch this space!

**Finally** When opening the gates, please either ensure the padlock is on the chain, closed and scrambled, or, placed on the hook outside the clubhouse. It has been left unclosed, it can fall into the long grass, and the tumblers unscrambled making it easy for someone outside the club to learn the code and gain entry.

## HAPPY BOWLING

John

Keep well and safe.
